

# Why buy HP Sign and Display Printing Materials?

## The HP large format printing system—the complete solution

HP Latex printers, Original HP Latex Inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, reliability, and consistency—with every print.

For detailed information on the HP large format printing materials portfolio and to order, visit [HPLFMedia.com](http://HPLFMedia.com).

## Original HP inks and HP printing materials—system chemistry

Original HP inks and printing materials are designed together to provide image quality, durability, and consistency you can rely on. Reliable results enable increased productivity and reduced costs.

Original HP inks are more than just ink and HP large format printing materials are far more than just paper. It's the chemical makeup of each, together with the carefully engineered interaction between the two, that make exceptional results possible. Image quality and consistency so predictable, it's almost cliché. Print permanence that's measured in generations, not months or years. Breakthrough innovations that give you real alternatives to traditional materials that, by nature, must trade-off quality, durability, even environmental considerations. The unique chemistry between HP inks and HP large format printing materials changes all that—among the broad array of materials offered in the HP large format printing materials portfolio, you can have it all.

## Original HP inks and printheads

Original HP printing supplies feature intelligent technology built into the ink cartridges, printheads, and the printer. These critical system components communicate interactively to provide automatic and continuous adjustments that optimize print quality and maximize printhead life. User-replaceable printheads enable easy, low-maintenance printing and can eliminate the downtime and expense of a service call.

## Designed with the environment in mind

Many HP sign and display printing materials are recyclable through commonly available recycling programs. And in some cases, HP offers the free, convenient HP Large Format Media take-back program.<sup>1</sup> And the HP Planet Partners program provides easy, convenient return and recycling of eligible Original HP large format ink cartridges and printheads.<sup>2</sup>

Unprinted HP Light Fabric is OEKO-TEX® certified according to OEKO-TEX® Standard 100, which is a globally uniform testing and certification system for textile raw materials, intermediate, and end products at all stages of production.

REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) is a regulation of the European Union, adopted to improve the protection of human health and the environment from risks that can be posed by chemicals.

Take advantage of free return through the HP Large Format Media take-back program.

Odorless indoor wall decorations printed on HP wallcoverings with HP Latex Inks are UL GREENGUARD Gold Certified.

FSC®-certified HP printing materials carry the Forest Stewardship Council® (FSC) Mix label, signifying that these media support the development of responsible forest management worldwide. The wood comes from FSC®-certified well-managed forests, company controlled sources, and/or recycled material.

Note: Not all FSC®-certified products are available in all regions.

The mark of responsible forestry

- Compatible only with the 60-inch (1524-mm) version of the HP DesignJet L25500 Printer series.
- HP Large Format Media take-back program availability varies. Programs may not exist in your area. See [HPLFMedia.com/ecosolutions](https://hplfmedia.com/ecosolutions) for details.
- Visit [hp.com/recycle](https://hp.com/recycle) to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, and for other consumables not included in the program, consult the Material Safety Data Sheet (MSDS) available at [hp.com/go/ecodata](https://hp.com/go/ecodata) to determine appropriate disposal.
- Purchase of a take-up reel (F0M61A) required for compatibility with the HP Latex 310 Printer.
- As of the date of this document, this product does not contain any of the chemicals on the EU's Candidate List for Authorization (otherwise known as Substances of Very High Concern) in concentrations exceeding 0.1%. To determine the status of SVHC in HP products, see the HP REACH Article 33 Declaration published at HP Printing Products and Consumable Supplies at [hp.com/hpinfo/globalcitizenship/environment/productdata/reachall-products.html](https://hp.com/hpinfo/globalcitizenship/environment/productdata/reachall-products.html). Logo source: Copyright European Chemicals Agency.
- Unprinted HP Light Fabric is OEKO-TEX® certified according to OEKO-TEX® Standard 100, which is a globally uniform testing and certification system for textile raw materials, intermediate, and end products at all stages of production. Tested for emissions of volatile organic compounds and chemical residues such as pesticides, allergy-inducing dyestuffs, or tin-organic compounds.
- Purchase of a take-up reel required for compatibility with the HP Latex 210 Printer.
- It is necessary to use the platen cover (B2W90A).
- Compatible with the HP Latex 360 Printer only.
- It is necessary to use the HP Latex 500 Series Ink Collector (T7U74A).
- It is necessary to use the HP Latex 1500 Series Ink Collector Kit (P4P92A).
- To print on porous textiles, it is necessary to use the ink collector kit (C2O65A) for the HP Latex 3000 Printer series.
- It is necessary to use textile accessories for long runs of textiles and porous textiles, including the HP Latex 700/800 Textile Kit Accessory (7HR16A) and the HP Latex 700/800 Ink Collector Foams Kit (7HR18A). Separate accessories purchase required.
- BMG trademark license code FSC®-C115319, see [fsc.org](https://fsc.org). HP trademark license code FSC®-C017543, see [fsc.org](https://fsc.org). Not all FSC®-certified products are available in all regions.
- HP wall papers printed with HP Latex Inks are UL GREENGUARD Gold Certified. UL GREENGUARD Gold Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit [ul.com/gg](https://ul.com/gg).
- Can be recycled through commonly available recycling programs.
