White PVC Table Cloth Material

Our White PVC Tablecloth Material offers a versatile, durable solution for both residential and commercial applications. Its smooth surface is compatible with both latex and UV printers, allowing for vivid, long-lasting custom prints to suit branding or decorative needs. With excellent print adhesion and colour vibrancy, this tablecloth material can bring any design to life, whether for personal events, hospitality, or retail environments. Easy to cut and install, it provides an affordable yet professional finish to any table setting.
