MIDCOMP / PRODUCT DATA SHEET

Neolt Model 2 Unwinder / Rewinder

Handle heavier rolls on either side of a print or cutting line. The independent drive adjusts its speed automatically, and optical sensors monitor tension for clockwise or anticlockwise winding.

- Maximum roll weight of 200 kg
- Roll widths of 1,650 or 2,050 mm
- Roll-holder shaft for loading media
- Machine width of 702.5 mm and height of 700 mm
